## **SP Adds 5 New Member Companies to its membership**

Washington, DC – The Suppliers Partnership for the Environment (SP) today announced that five companies have joined the organization: AGS Technology Inc., Arcalis Scientific, LLC, Green Tree Products & Technologies LLC, Lear Corporation and TestAmerica Laboratories, Inc. In addition, the State Government of Victoria, Australia, will be joining SP as a liaison member

SP Chair Randy Leslie, Vice President and General Manager, Johnson Controls, Inc, Automotive Experience, stated, “These company additions to SP will enhance the organization as a whole, and provide more opportunities for the organization to improve environmental and economic excellence, while sharing best practices to improve individual company performance.”

Adam Westerdale, COO of General Oil Company and Chair of SP’s Membership Development Committee added, “We are excited to have these companies working with us and a new liaison member to SP. In addition, we are particularly pleased to welcome back one of our founding members, Lear Corporation.”

The new member companies’ representative to the SP Board of Directors will be:

- AGS Technology Inc.: George Staniulis, Vice President
- Arcalis Scientific LLC: Pat Beattie, President
- Green Tree Products & Technologies LLC: Sam Cremin, Managing Director
- Lear Corporation: Barbara Boroughf, Vice President, Global Environmental, Health & Safety
- TestAmerica Laboratories, Inc.: Dave Lanzola, National Account Manager

The new liaison to the SP Executive Committee for the State Government of Victoria will be Scott Adlington, Invest Victoria, Investment Manager

SP is a partnership between automobile original equipment manufacturers and their suppliers and the U.S. Environmental Protection Agency (EPA). SP Work Groups address issues that improve the environment while providing value throughout the automobile supply chain. SP provides a forum for small, mid-sized and large automotive and vehicle suppliers to work together, learn from each other, and share technologies and environmental best practices.

Steve Hellem, Executive Director of SP states, “As SP continues to expand its membership, so does the scope of SP’s mission to improve the environment through innovative collaborations between automobile suppliers and the U.S. EPA. We look forward to working with these new companies, and continuing our pursuit of environmental excellence and the economic viability of the automobile supply chain.”
