

Requirements for Membership

Membership in the Suppliers Partnership for the Environment (SP) is open to any company that supplies goods or services to an automotive manufacturer or parts supplier. Also, a non-profit organization having an established commercial relationship with the automotive industry may be considered for an “associate” membership.

Application for membership in SP needs to be made by completing the following application form. A prospective member also needs to indicate the company’s willingness to conduct business in accordance with SP’s bylaws and its anti-trust guidelines – both of which may be found on the SP web site, www.supplierspartnership.org.

Since active participation is an important membership quality, please identify in the application the individual within the company who will be the Board of Directors contact for the organization as well as the individual(s) who will participate in Work Group meetings, and activities and other functions as necessary.

Supplier company membership dues are assessed based on *total North American corporate sales* as indicated on page 2 of this application. **Applications should be mailed to the address below and include payment for membership. SP’s Executive Committee will review the application and upon approval, the membership payment will then be deposited.** SP’s fiscal year runs from January 1 to December 31. Membership dues will be pro-rated for the months remaining in the fiscal year if joining in the second half of the year. Travel and other expenses related to participation in SP activities are the responsibility of each individual company.

Thank you for your interest in SP membership. For more information, please contact:

Steve Hellem
Executive Director
