Water Solutions & Technologies

A fully-owned subsidiary of Veolia Water specializing in technological solutions and design-build projects

Serving industrial and municipal customers and providing the full range of water treatment:

- Process water
- Reuse & recycle
- Zero liquid discharge
- Wastewater
- Drinking water
- Surface water treatment
- Storm water management
- Water treatment chemicals

Combining our expertise and innovation, we develop solutions for even the most complex applications

- Process design expertise
- Research and development resources
- Bench-scale to full-scale piloting
- Pre-engineered and custom systems
- Design-build delivery of integrated projects
- 350 proprietary technologies
- Mobile solutions
- Hydrex™ chemicals
- Parts and service
- Evaluations and field services

Biofuels • Oil & Gas • Chemicals • Municipal • Primary metal
Food & Beverage • Power • Pulp & Paper

Industrial Service & Solutions

Service portfolio

Turnkey industrial services portfolio to keep industrial sites operating at peak efficiency

- Hydro-blasting
- Tank cleaning
- Vacuum services
- Chemical cleaning
- Separations services
- Emergency response
- Hands Free™ technologies

Veolia – Did you know?

In 2016, the Veolia group supplied **100 million** people with drinking water and **61 million** people with wastewater service,

Veolia has helped New York City save \$100-\$200 million/year in more efficient management of public water and wastewater services.

Veolia has a long term contract with several companies, including in Scotland & Norway to decommission offshore oil platforms.

In 2016, Veolia produced **54 million** megawatt hours of energy and converted **30 million** metric tons of waste into new materials and energy.

The Veolia Foundation has funded over 1,350 projects and have funded missions in 50 countries.
