

# 2023 SP Innovation Summit

**Accelerating sustainable innovation through the automotive value chain.**

July 26 - 27, 2023  
Columbus, Ohio

# About the SP Summit

Co-hosted with The Ohio State University, the 2023 Suppliers Partnership for the Environment (SP) Innovation Summit is designed as an interactive event focused on building understanding of critical barriers impacting the sustainability of the automotive value chain and working towards practical solutions to accelerate innovation in support of industry sustainability priorities.

# Key Summit Themes

SP's automaker and tiered supplier members are leading action on the next generation of ambitious environmental sustainability goals aspiring to advance positive environmental, economic and community impacts through their operations and value chains.

The Summit agenda will focus in on innovation and emerging trends related to key industry goals, within key areas such as carbon neutrality, circular and sustainable materials, EV battery lifecycle management and water stewardship.

**Carbon  
Neutrality**

**Circular &  
Responsible  
EV Batteries**

**Sustainable  
Manufacturing**

**Sustainable  
Materials**

# Facilitating Connection & Communication

Throughout the Summit cross-functional teams from leading automakers, tiered suppliers, industry partners, government and academia will come together to understand key industry sustainability priorities, explore barriers to action / progress, and identify opportunities to accelerate efforts in support of long-term sustainability goals.
