

Parking at Center for Automotive Research 930 Kinnear Road, Columbus, OH 43212

OSU Permit parking spaces are the non-electric charging station spaces on the freshly paved portion of the lot, which are also all of the spaces in front of chain link fence.

- Free / non-OSU Permit parking spaces are all of the spaces behind the chain link fence (light gray parking areas), that aren't designated for a state vehicle
- **For EV drivers:** spaces in front of the electric charging stations in the front of the building and must be actively charging, in order to not get a parking ticket. Thanks!

The east side fence (right side of picture) is open between 7:00 a.m. and 8:00 p.m. every day. The west side fence (left side of picture) is only for exiting the back lot.
