

SP Membership Application (OEMs)

Since 2002, Suppliers Partnership for the Environment (SP) has been the leading forum for global vehicle manufacturers and their large and small suppliers to work together to improve the environmental sustainability and business value of the global automotive supply chain. As SP continues to provide innovative solutions and cooperative approaches to environmental sustainability issues in the automotive and mobility value chains, we welcome new companies to join us in this endeavor.

MEMBERSHIP REQUIREMENTS

- Membership is open to vehicle manufacturers (“OEMs”), and companies that supply goods or services to an OEM or parts supplier. This membership form applies only to those companies whose primary business is the manufacture / assembly of complete vehicles. Companies whose primary business is to supply goods or services to an OEM (“Suppliers”) should consult the relevant Supplier application form.
- An invoice for annual membership dues will be issued upon acceptance of the application. SP’s fiscal year runs from January 1 to December 31. Future membership dues may be prorated in the second year based on a new member’s application date to align with a calendar year billing schedule.
- It is understood and agreed that this membership will be maintained for at least one year and may be continued thereafter, without renewal, on a year-to-year basis unless the member notifies the Executive Director of their intention to resign prior to the close of the fiscal year.
- A prospective member also needs to indicate the company’s willingness to conduct business in accordance with [SP’s bylaws](#) and its [antitrust guidelines](#).

OEM ANNUAL MEMBERSHIP DUES

OEM dues are based on a company’s US market share. Please select the appropriate membership level based on your company’s total US market share in its primary OEM market segment as of the prior full calendar year.

Primary OEM market segments may include, for example, light-duty passenger vehicle manufacturers, medium- / heavy-duty commercial truck and bus manufacturers, and, agricultural and construction equipment manufacturers. Where a company operates across multiple OEM market segments, its largest market segment will be considered for the purpose of assessing membership dues.

- >10% US Market Share: \$20,000
- >5% – <10% US Market Share: \$15,000
- <5% US Market Share: \$12,500

Our organization wishes to apply for membership in SP, and agrees to comply with and support the vision, mission, antitrust compliance policy and bylaws of SP as a member company.
